Writing in this file for C files, experiment 9

Experiment 9 : File Handling in C.

1. Write a program to create a new file and write text into it.

```
#include <stdio.h>
int main () {
FILE  *fptr;
fptr =  fopen ("myfile.txt", "w");
fprintf (fptr, "writing in this file for C files, experiment 9");
fclose (fptr);

return 0;
}
```
